

The Mary Babb Randolph Cancer Center at West Virginia University seeks an outstanding clinician scientist to serve as Co-Leader of the endowed **Sara Crile Allen & James Frederick Allen Comprehensive Lung Cancer Program**. Outstanding academic solid tumor medical oncologists with verifiable expertise in lung cancer are encouraged to apply. Applicants may also be eligible for **Eminent Scholar** funding from the State of West Virginia. Depending on credentials, leadership opportunities exist in the Clinical Trials Research Unit. Applicants must be board certified in Internal Medicine and Hematology and/or Oncology.

This is an exciting time to join the MBRCC, which is in the midst of a \$50 million expansion that has nearly doubled existing space with investment in programmatic growth of which the Lung Cancer Program is a priority. The Cancer Center expansion includes enormous capital expansion and both multidisciplinary and interdisciplinary programmatic growth in cancer research and patient care. MBRCC is West Virginia's most comprehensive cancer treatment, research and education facility. It offers a multidisciplinary team approach and state-of-the-art technologies and treatments, as well as clinical trials, and a variety of education and prevention outreach programs that poise it for growth toward an application for NCI-designation. Candidates with a strong record of extramural funding (R01 or equivalent), prospects to secure independent funding and superb clinical skills are encouraged to apply. This is an exciting time to join and grow the Mary Babb Randolph Cancer Center at West Virginia University.

Morgantown, West Virginia, consistently ranked one of the **Best Small Cities in America**, is located just one hour from Pittsburgh, PA. This University city offers lakeside living, fine dining, and an abundance of outdoor activities including biking, whitewater rafting and skiing. Morgantown has an excellent public school system and offers culturally diverse, large-city amenities in a safe, family setting.

Inquiries should be directed to:
